

POINTS OF PRIDE #35

01 LONE STAR STATE COUNSELORS

On Sunday, October 22, School counselors from across Texas selected our superintendent, Dr. Michael McFarland, as the Lone Star State School Counselors Association Superintendent of the year because of his exceptional support and commitment to the school counseling profession. Congratulations Dr. McFarland! We are Crowley proud of you!

02 RICHARD ALLIE MIDDLE SCHOOL

In 1919 Texas saw its last annular eclipse so we were thrilled to host a watch party on Saturday, October 14 for students to experience this once in a generation event. Our Solar Eclipse Community Day at Richard Allie Middle School was a huge success with vendors, music and lots of learning. Thank you to all of the families and staff that participated!

03 TEEN SUMMIT

Our inaugural teen summit was held right here in the CISD board room on Friday, October 20. District administrators brought students together from every middle and high school in Crowley ISD to talk about bullying and cyber bullying. Thank you students for speaking. We are listening! We look forward to an ongoing dialog as this is only the beginning .

04 COLLEGE FAIR

Crowley Pride was on display at our annual College Fair Wednesday, October 18 as approximately 3000 students were able to interact and connect with representatives from 70 colleges and universities. Recruiters complimented our students and facilities and were able to enjoy the CISD hospitality. We are Crowley Pride Unified!

05 NORTH CROWLEY

On Friday, October 13 Crowley ISD took a moment to recognize the 20th anniversary of the North Crowley football team's epic state title run in 2003! During halftime, members of the team and coaching staff were able to walk out on the field, watch a highlight video of their historic season and received a recognition from the City of Fort Worth. Way to represent!

06 SYCAMORE ELEMENTARY

Sycamore is proud to be one of six Tarrant County schools to receive a grant for the Eat Well, Feel Well program through the Texas A&M AgriLife Extension Service - Tarrant County for this school year! This health and wellness initiative brings 12 vegetable gardens along with student and parent classes on gardening and nutrition. It was fun for the entire school family!

07 DAVID WALKER

The David Walker family went above and beyond in their commitment to fostering strong relationships with parents and students. By holding parent-teacher conferences at the Arwen Apartments on Saturday, October 22, where most of their students reside, Walker teachers were able to provide valuable insight into each student's progress and offer resources to help them succeed. We are truly grateful for the tireless efforts of the Walker staff in supporting the growth and development of our children.
