**Robotics and Automation**

CROWLEY HIGH SCHOOL	Dept: CAREER TECH
Alphakey: 07228930	Subj: CAREER TECH
Course Length: YEAR	Credits: 1.000
Curriculum: Robotics Automa	Course Grades: 10 - 12

Explanation: Robotics and Automation

Robotics Programming and Design will foster student creativity and innovation by presenting opportunities to design, implement, and present meaningful robotic programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve problems in designing and programming robots. Through data analysis, students will identify task requirements, plan search strategies, and use robotic concepts to access, analyze, and evaluate information needed to solve problems. By using robotic knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of robotics through the study of physics, robotics, automation, and engineering design concepts.

Grade Placement 10-12 .5 credit  
Prerequisite: None

For more information about a course click the title or course number.

On the search tab you can type in the course number from the Student Handbook then click search. This will bring the exact course up on the available course list.
