

CROWLEY INDEPENDENT SCHOOL DISTRICT Medication Administration Authorization Form/Secondary

Student's Name: _____ DOB: _____
 _____ Allergies: _____
 Date of Request _____ School: _____ Teacher/Grade _____

Medication Administration Policy

During the school day, the school nurse or other trained non-healthcare personnel may administer medication when such treatment is necessary for school attendance and cannot otherwise be accomplished. All medication, given three times per day or less, should be given outside school hours. For example: three times a day medication can be given before school, after school and at bedtime. If necessary for medication to be given at school the following conditions must be met:

Prescribed medications:

- The first dose must be given at home in case of unexpected allergic reaction.
- Medication must be brought in by parent in original container, properly labeled by the pharmacy. Parents must supply any special equipment necessary to administer medication.
- Medication must be FDA approved.
- Medication will not be given without specific written request signed by parent/guardian.
- Medication must be kept in the clinic, with the exception of inhalers/epi-pen that physician may deem necessary for student to carry on their person. In this case, physician must sign appropriate box below. All rules regarding medication given at school still apply. If student is misusing inhaler, the privilege will be revoked. A second inhaler should be kept in the clinic.

Over-the-counter medications: Same rules apply as with prescribed medications except that they can be given with parent authorization only, physician signatures are not required. The medication can only be given as directed by the manufacturer and must be FDA approved. CISD will not administer herbal medications.

End of the school year: All medication must be picked up from clinic by the last day of school. Any medication left at the school will be disposed of by the nurse.

Medication	Dosage	Time of Administration	Route	Start/End
1.				
2.				
3.				

Condition for which medication is given, side effects for child, special instructions, pertinent information:

PHYSICIAN AUTHORIZATION FOR EPI-PEN AND/OR INHALER TO BE CARRIED ON PERSON AND SELF-ADMINSTERED	
In my opinion, it is necessary for the above named student to carry and self-administer their Epi-pen and/or rescue inhaler. Student has demonstrated ability to correctly administer medication and understands dosage and frequency. A backup Epi-pen and/or inhaler should be supplied to clinic for emergencies.	
Medication that will be self carry:	EPI-PEN INHALER
Physician Signature:	Physician name:
Date:	

School Nurse: _____ Clinic
