

Texas Health Mobile Health Services Bus

The Mobile Health Services Bus provides services to those unable to access healthcare due to a lack of transportation or adequate financial resources. Overseen by a physician, the Mobile Health Services Bus is staffed by a Family Practice Nurse Practitioner, a licensed paramedic, varied allied health professionals and volunteers.

| Hepatitis A & B immunizations | Vision screening |
| Lab work with Dr. orders | |

Nurse Practitioner Services: The Mobile Unit staffs a Board-Certified Family Nurse Practitioner at all our monthly sites. She handles all the health problems that come up from time to time. Colds and flu, ear aches, tummy issues and most all acute problems. She does not see you for chronic issues. She has the ability to prescribe medications, order x-rays and some lab test as well as any other medical test needed to help you feel better.

Health Fairs: Texas Health Huguley's Mobile Health Services participates in some of Tarrant and Johnson counties largest health fairs. The health fairs involve many medical providers and services; the mobile unit can provide EKG's, spinal screening, vision, hearing, blood pressure, skin cancer screenings, prostate exams, breast exams, height or weight and low-cost screenings for osteoporosis, and diabetes. Education is also a large aspect of each and everything the mobile unit participates in.

First Aid Station: For a low fee the mobile unit is available to provide first aid to local events. The unit has provided services for the Main Street Arts Fest, Camp Aurora (juvenile diabetes camp with Cook Children's hospital and the American Diabetes Association), Day Camp with the American Red Cross, October Fest and Pioneer Days in Fort Worth, Good Life Days and the Pony League girls fast and slow pitch softball tournament in Burleson, Willie Nelson's Fourth of July picnic and Operation Graduation in Crowley.

Flu Shots: Texas Health Huguley provides low cost flu shots each year from August through February. Last year the unit gave over 3,000 immunizations against the flu. Check back on our online calendar in Mid-August to see where we will be giving shots.

Immunizations: The Mobile Unit gives childhood immunizations through the Vaccine for Children initiative and the Fort Worth Public Health Department to children ages 0 to 18. Immunizations are given at health fairs, monthly community location sites and local schools or almost anytime the mobile unit is available.
