## Suicide Awareness & Prevention

In Crowley ISD steps are taken to empower students at every grade level with protective influences that decrease the likelihood of suicide. These steps are provided in a variety of methods and with age- related considerations.

The elementary and intermediate campuses utilize classroom lessons on the topics of kindness, self- confidence, communication, and perseverance. Each of these traits contribute to a healthy self and supportive relationships. Throughout the school year speakers and programs are presented to the students and staff that promote protective qualities which reduce the risk for suicide.

At the middle School and high School campuses the attributes of kindness, self-confidence, communication, perseverance, and leadership are also imparted in a variety of means. In September, each campus utilizes a Suicide Prevention Week. During this week announcements are shared giving suicide awareness and prevention tools. Students are equipped with information to report concerns regarding peers, family, and themselves. Throughout the school year speakers and programs are presented to the students and staff that promote protective qualities which reduce the risk for suicide.

Additionally, staff on all Crowley ISD campuses are provided training on suicide awareness. Staff are provided basic information for offering support to a student in crisis and ensuring student safety. All Crowley ISD campuses have a procedure to follow when an out-cry or self-harm concern is presented. A student at risk of suicide or self -harm is screened for risk level, a parent or guardian is provided an Emergency Notification that includes external referral sources, and follow up with the student is carried out to ensure support and a healthy welfare of the student.
