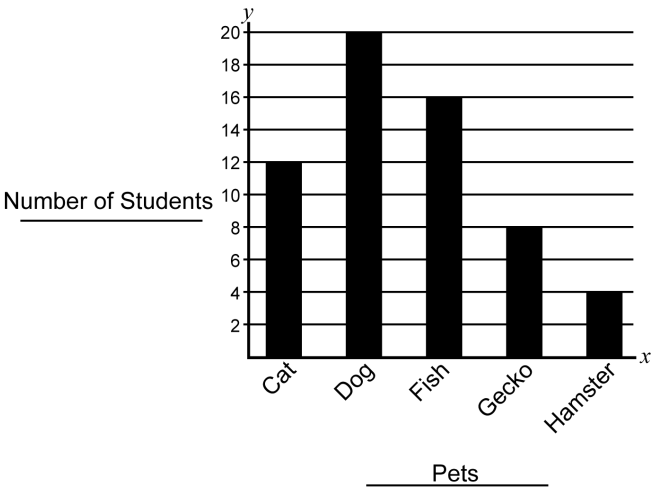
Scoring Rubrics

12



Check student's work for accuracy, consistent intervals, labels, etc.

3	The construction of the graph exhibits full understanding of labeling the x- and y- axis with titles and numbers. The bar graph clearly reflects correct representation of the relationship of the number of students to pets.
2	The construction of the graph exhibits some understanding of labeling the x- and y- axis with titles and numbers. The bar graph reflects some representation of the relationship of the number of students to pets.
1	The construction of the graph exhibits little understanding of labeling the x- and y- axis with titles and numbers. The bar graph does not clearly reflect correct respresentation of the relationship of the number of students to pets.
0	The student did not attempt to complete the task of labeling the x- and y- axis, nor did the student attempt to create the bar graph of the information.
