Re: TRANSPORTATION OF PROGRAM STUDENTS AND DISTRICT TRANSFER OF OVERFLOW STUDENTS

In order to clarify some possible questions regarding student transfers within the district, the following steps are outlined:

1. Program Transfers (students who do not attend their home campus due to programs for which they qualify only being offered at another campus) will be picked up at their home campus and shuttled to the campus at which the program is located. If they are eligible for transportation because they live over 2 miles away from their home campus, they will be picked up at the designated neighborhood bus stop and transported to the home campus to then catch the shuttle.
2. District-mandated transfers, due to overflow in K-4 grades, will be provided door-to-door transportation.
